“Hello, I am **Scharmien** – a singer, composer, instrumentalist, performer and producer. Live - I am a One Woman Band”

Scharmien Zandi is inspired by **music, multimedia art, and storytelling**, constantly searching for **hidden sound spaces** to dissolve the boundaries between **reality and imagination**. Her performances invite the audience to **fully experience the here and now**. What does it mean to be **real, present, and truly live?**

“**Liveness**” is a music performance that explores the meaning of **being live** in an increasingly digital and media-driven world. She employs **voice, live looping & recording, electronics, storytelling, instruments, languages, AI tools, and visula art** to create **immersive sonic landscapes**.

**Welcome to the Zandiverse!**
